## THROUGH-THE-WALL SYSTEM

### Preserve your collection of fine wine with a finer cooling system.

Introducing the new Through-the-Wall Wine Cooling System from Wine Guardian®, the renowned leader in wine preservation. The system is available in two capacities, each with a sleek, modern design to match the unique style of today's wine cellar. Perfect for small to mid-sized cellars, this innovative system offers exceptional airflow and maintains optimal temperature and humidity with quiet operation.

### Quality, sophistication, and a host of other standard features unique to Wine Guardian®

- Commercial-grade, corrosion-resistant components and an all-aluminum frame for long-term durability
- The only Through-the-Wall system that controls temperature and displays both temperature and humidity
- Engineered for ideal airflow, including adjustable louvers for optimal cellar air circulation
- Quiet and efficient operation
- Can be mounted flush with the wall or racking
- EasyMount™ one-piece wall bracket and support frame included

## SYSTEM SPECIFICATIONS\*

MODEL	CAPACITY	WIDTH	DEPTH	HEIGHT	ELECTRICAL	WEIGHT
WG15	10-25 m <sup>3</sup>	356 mm	635 mm	403 mm	220-240v / singlephase / 50 Hz	27 kg
WG25	20-40 m <sup>3</sup>	356 mm	635 mm	403 mm	220-240v / singlephase / 50 Hz	28 kg

\* Designed for 35°C max, 10°C condenser inlet. Sizing note: Many variables affect proper unit sizing, including type of construction, insulation values, amount of glass, residential vs. commercial applications, etc. Proper unit size should only be determined by using the Wine Guardian sizing calculations. Check with your Wine Guardian authorized distributor for more information.

\*\* Direct replacement for most through-the-wall models. Ask your authorized Wine Guardian® distributor for details.

Wine Guardian® systems are made in the USA.
